1998-99 State Issues Report

EDUCATION COMMISSION OF THE STATES
Information Clearinghouse

INTRODUCTION

Most of the items in this *State Issues Report* cover the preK-12 level. They have been collected from Nexis, legislative staff, state newsletters, school board/teacher associations and various media. ECS staff have made every attempt to validate all information.

Initially, the information in this report is raw data — rapidly processed to be released in printed form at the earliest possible date. Editing has been kept to a minimum; many items appear in a form similar to the one in which they were received. Bill descriptions may have been modified since introduction.

This report was compiled by the ECS Information Clearinghouse, the centralized resource arm of the commission. ECS policy experts and staff are available to assist in the search for state and legislative information, topical research and publications. The Clearinghouse also is linked to a wide range of education-related organizations. If your question deals with education, Clearinghouse staff can provide the answer — or at least point you in the right direction. You also can visit the Information Clearinghouse section of the ECS Web site (www.ecs.org) for additional information on education issues, state policies and "best practices."

Contact the ECS information Clearinghouse at 303-299-3675, at ecs@ecs.org or by fax at 303-296-8332.

ND	Signed by governor Apr-99	Section 17 of this bill prohibits the superintendent for public instruction from changing the credentialing process for special education teachers as it is in effect on March 1, 1999, without first convening a meeting to include representatives of the North Dakota council of education leaders, the council of exceptional children, the North Dakota education association, and the North Dakota school boards association. The purpose of the meeting is to receive comments regarding the proposed changes, the applicability of the proposed changes, including the scheduling, the manner of implementation, associated costs, and the short-term and long-term effects of the proposed changes. If, within 30 days after the date of the meeting, members of any two representative groups present at the meeting object in writing to the proposed changes, the superintendent may not implement the change prior to July 1, 2001. ND	Signed by governor Apr-99	Section 20 of S.B. 2013 reflects concern of the fifty-sixth legislative assembly Urges the Congress of the United States and the President to increase federal funding for special education to achieve, within the next three years, the statutory goal of the federal government providing funding for special education students equal to 40% of the national average per student educational expenditure. Requests secretary of state to send copies sent to pertinent federal policy makers. Title: S.B. 2013 Urges Federal Funding for Special Education Source: <i>Lexis-Nexis/StateNet</i>
ND	Signed by governor Apr-99	Amends and reenacts Section 15-59-06, 15-59-06.2 to address residence/placement of students with disabilities: students who are receiving services must be deemed to be enrolled in the district of residence and must be included in determination of payments from the state foundation aid program, whether or not the students regularly attend school in the district receiving the payments. Any contracts for out-of-district placements must be approved in advance by the superintendent of public instruction. Superintendent of public instruction then withholds payments to the district of resident in an amount equal to the unpaid tuition until that amount has been paid. Districts are reimbursed 80% of the remainder of the actual cost of education the student with disabilities not covered by other payments or credits, within the limits of legislative appropriations for that purpose. Clarifies that the cost of special education is a liability of the school district. If costs exceed the reimbursement provided by the state, the school district is liable to pay for each student an amount over the state reimbursement up to a maximum each year of 2.5 times the state average per student elementary or high school cost and 20% of all remaining costs. The state is liable for 80% (changed from 100%) of the remainder of the cost within the limits of legislative appropriations for that purpose. Sets the make-up of council. Requires that course of study prescribed and enforced by the state board must comply with the content and performance standards established by the Council to Establish Academic Standards, and that textbooks approved by the state board must adequately support the standards. Local boards are required to align curriculum with the standards. Also requires state board to consult with local boards when reviewing teacher-training programs and may not approve those programs unless they offer training in the new standards. Title: S.B. 466 Council to Establish Academic Standards Source: <i>Nevada Legislative Counsel Bureau</i>
NV	Signed by governor Jun-99	State board is required to prescribe examinations that measure proficiency in standards. Exams to be given in grades 3 and 5 (English and math) beginning in spring of 2001. Extends to 1-15-2000 the date by which Council to Establish Academic Standards must adopt the second phase of standards (social studies, Health/physical education, computer education, arts). Spells out schedule for phasing new standards into the high school proficiency exam. Provides assistance to pupils who have not been able to pass the new, more challenging high school proficiency examination in math. If pupils enroll in intensive, remedial education or tutoring programs during the summer of 1999, they may retake the test in one or both of two special administrations of the exam in July and August of 1999. Allows pupils who have met all requirements for a standard diploma except for passing the exam to participate in graduation ceremonies and to be awarded a certificate of attendance, to be replaced by a standard diploma once they pass the exam. Creates a temporary task force to review the contents of the exam, review methods by which results are reported to schools and parents and determine whether another method of reporting might be more helpful.
